BOND ■

## Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. To achieve medium- to long-term capital growth. The Sub-Fund invests at least 67% of assets in convertible bonds. There are no rating constraints on these investments. The Sub-Fund seeks to eliminate the effects of most currency exchange differences for investments in non-euro denominated securities (currency hedging). The Sub-Fund may use derivatives for hedging and efficient portfolio management.

**Benchmark :** The Sub-Fund is actively managed by reference to and seeks to outperform the Thomson Reuters Convertible Index Global Focus Hedged (EUR) Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

**Management Process :** The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.
