# Industry 4.0

Producing and distributing efficiently

# FANUC

SMART FACTORIES  
€47 BN

«Reliable, predictable, easy to repair. Fanuc aims to minimize downtime in all factories all over the world»

- Automation solutions from Japanese world leader  
Global leader in robotics, in computer numerical controls and servo motors for machine tools
- +50% global market share in computerized numerical controls for machine tools
- Sustainable competitive advantage due to unparalleled Know-how

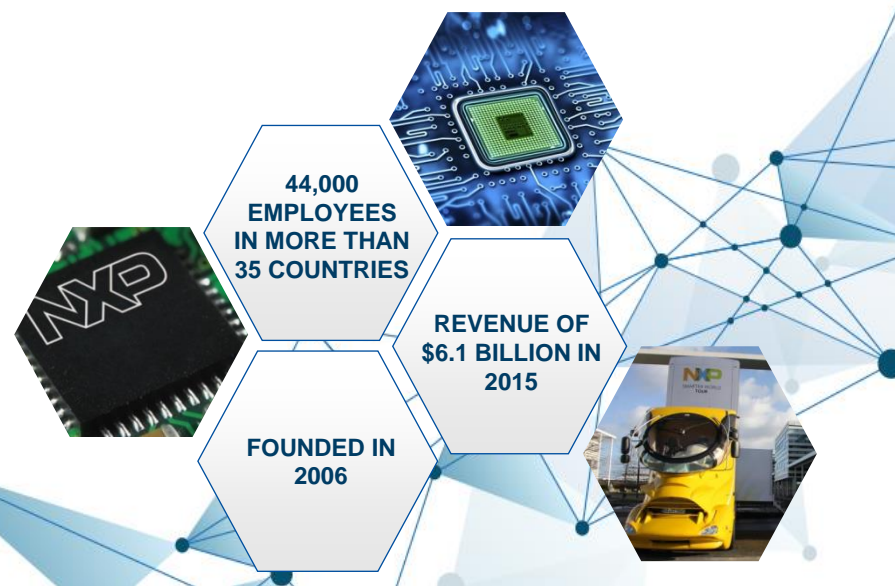

<http://fanuc.co.jp/en/ir/index.html>

ELECTRIC VEHICLES  
€ 33 BN

“NXP Semiconductors creates solutions that enable secure connections for a smarter world.”

- Building on its expertise in high-performance mixed-signal electronics, NXP is driving innovation in the areas of connected cars, cyber security, portables & wearables, and the Internet of Things.
- Activity Area :
  - Automotive
  - Smart Connected Solutions for the Internet of Things (IoT) → mobile payment, healthcare, retailers
  - Motor Control → cost-effective and energy-efficient motor control for most applications

<http://investors.nxp.com/>

3D PRINTING  
€2.3 BN

“Custom prototypes and low-volume production parts in as fast as 1 day”

- Digital manufacturer that helps companies to improve product development, reduce risk and accelerate product launch
- Unprecedented speed-to-market value for product developers and engineers worldwide.
- Capability to ship parts as soon as the same day they are ordered.
- eCommerce-driven digital manufacturing model.
- Technology-agnostic with three distinct rapid manufacturing services:
  - Injection molding
  - CNC machining
  - 3D printing

<http://phx.corporate-ir.net/>

“Tesla’s mission is to accelerate the world’s transition to sustainable energy.”

- Changing the fundamentals of the automotive industry with several disruptions in all value chain
- Efficient electric car
- Free and ultra-fast charging stations
- Online store and over-the-air software updates
- Opening of the Gigafactory and acquisition of SolarCity to offer a full suite of energy products that incorporates solar, storage, and grid services.

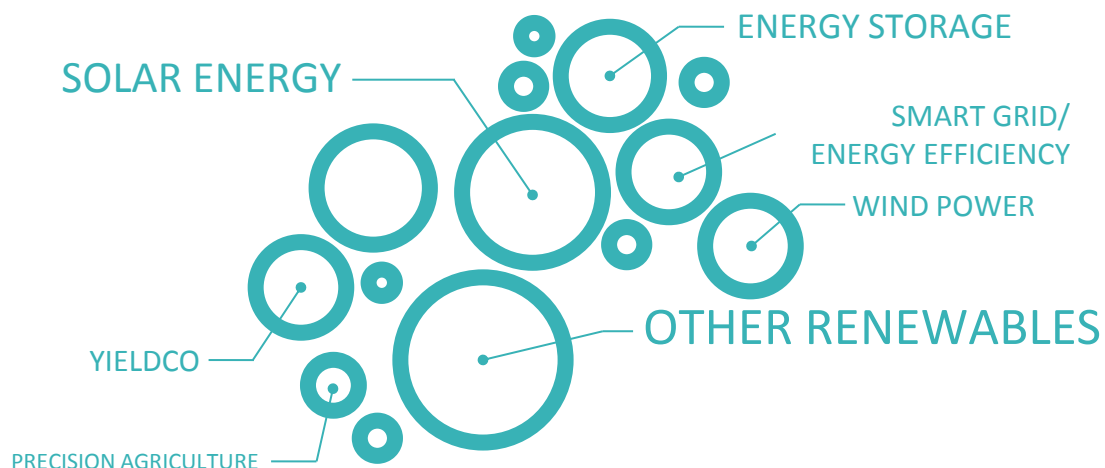

ELECTRIC VEHICLES  
€48 BN

<http://ir.tesla.com/>

# Earth

Renewing natural resources, producing green energy and feeding the world sustainably

“We create enduring value for our customers by powering their worlds through clean and affordable energy.”

Mark Widmar First Solar CEO

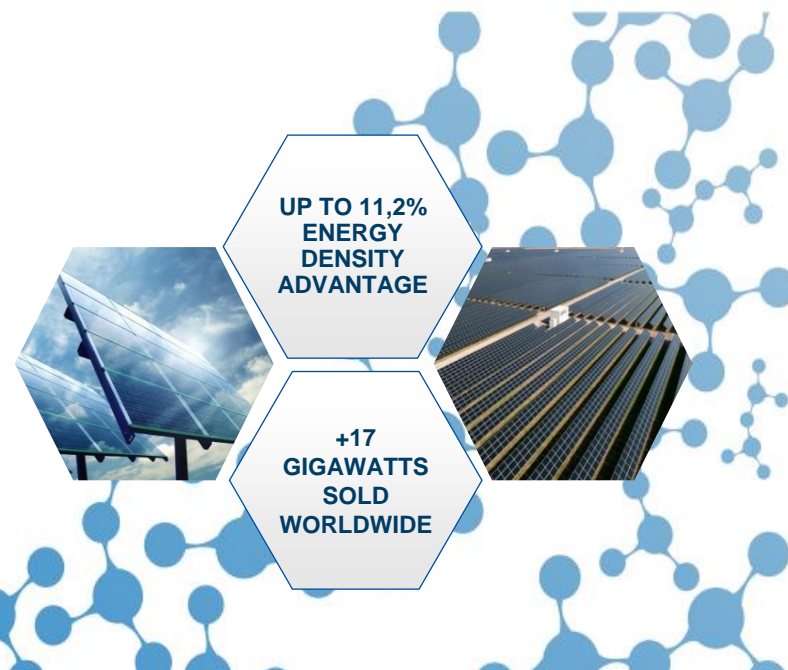

- Global leader in photovoltaic (PV) solar energy solutions
- High-efficiency modules offering a clear energy density advantage over silicon-based modules by delivering superior efficiency, higher real-world energy yield and long-term reliability
- Global Solar Demand Continues to Grow Rapidly ; 2017 Demand of ~90 GWs\*
- Differentiated Thin Film Technology Combines Low Cost and High Efficiency
- Proven Track Record with >17 GWs of Modules Sold Worldwide
- Industry Leading Balance Sheet to invest in Disruptive Technology Roadmap

<http://investor.firstsolar.com/>

\*Estimated PV Installs by IHS (PV Demand Tracker Q3 2017)

SOLAR

asset  
management

Document intended for "professional" investors

ENERGY EFFICIENCY  
€1.2 BN

“SolarEdge’s mission is to become the leading provider of inverter solutions across all PV market segments and broaden the availability of clean, renewable solar energy.”

- Has invented an intelligent inverter solution that has changed the way power is harvested and managed in a solar photovoltaic (PV) system.
- The SolarEdge DC optimized inverter system maximizes power generation at the individual PV module-level while lowering the cost of energy produced by the solar PV system.
- Addresses a broad range of solar market segments, from residential solar installations to commercial and small utility-scale solar installations.

<http://investors.solaredge.com/>

“SQM has become a business ally in the search of better solutions for its customers.”

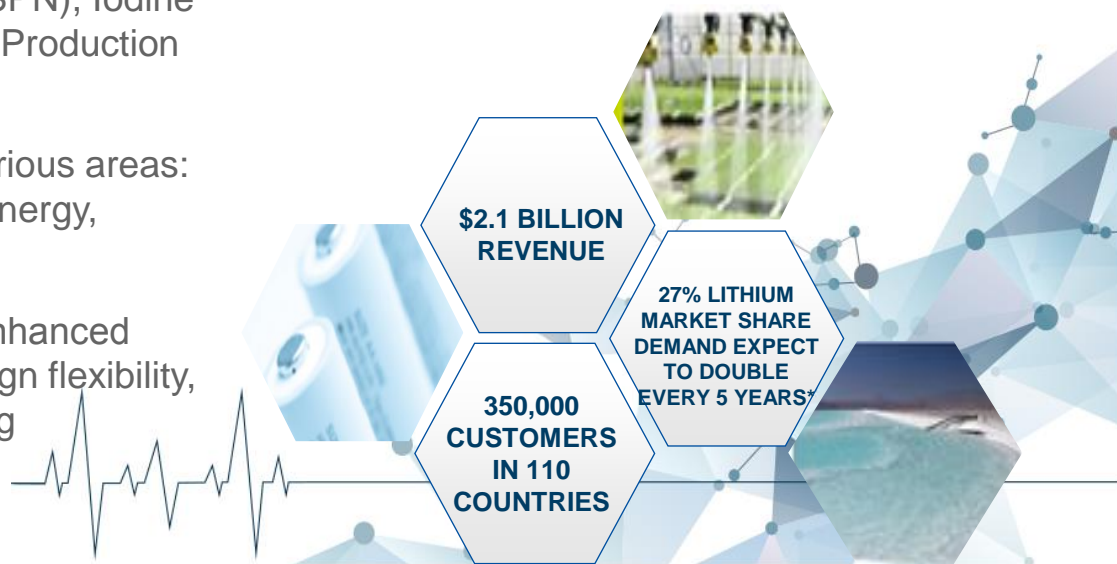

- Focusing on the extraction of minerals
- The largest producer in the world in these 5 niches and markets: Specialty Plant Nutrition (SPN), Iodine and derivatives, Lithium and derivatives Production of Industrial Chemicals and Potassium
- Challenges sustainably addressed in various areas: environment, health, food, technology, energy, resources
- Various innovative solutions' benefits: enhanced safety solutions, higher power yield design flexibility, lower O&M costs and efficient monitoring

\* As of December 31, 2016; SQM business website

<http://ir.sqm.com/>

ENERGY STORAGE  
€12.5BN

“One of umicore’s horizon 2020 goals is to be a clear leader in clean mobility materials. this means keeping up with the rapid adoption of electrified vehicles (evs).”

- Global materials technology and recycling group operating in advanced materials industry
- Umicore has an edge in the most differentiated part of the battery.
- Backward integration in the metal processing, for large format batteries, quality of the ingredients is even more critical because it only take one impurity to short circuit the entire battery cell.
- First mover advantage in the cathode composition, nickel rich cathode could transform the lithium battery market and every industries that depend of it. More nickel, with less manganese and cobalt will dramatically increase energy density, then autonomy.

**ENERGY STORAGE**  
**€9.6 BN**

**10,000

# Lifescience & Healthcare

Improving medical research to increase quality and life expectancy

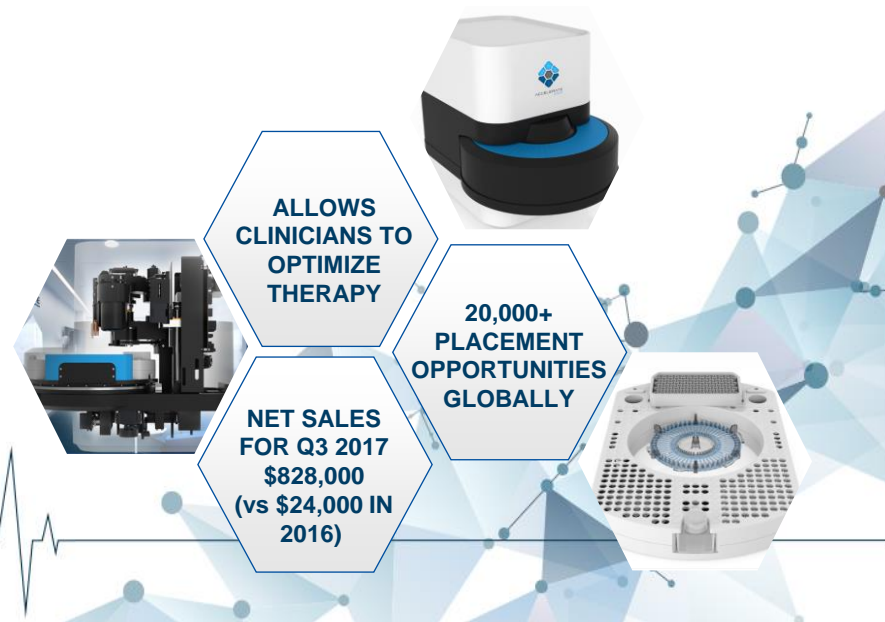

“Purpose built to revolutionize the microbiology lab” -  
Accelerate

- An in-vitro diagnostics company dedicated to providing solutions for the global challenge of antibiotic resistance and hospital acquired infections
- Focuses on developing and commercializing innovative instrumentation for the rapid identification and antibiotic susceptibility testing of infectious pathogens.
- First fully automated solution permitted by the FDA for quantitative antibiotic susceptibility testing direct from patient samples
- Commercial demand increasing throughout launch: signed agreements covering 295 instruments 8 months into launch

<http://ir.axdx.com/>

LIFESCIENCE  
TOOL/DIAGNOSIS  
€1.2 BN

“Optimizing Patient Care, Enabling Staff Efficiency  
and Sustaining Practice Prosperity”

- Manufactures and supports a complete portfolio of radiation therapy and radiosurgery platforms for treating multiple forms of cancer.
- Accuray products offer a better treatment for localized tumors, from the ability to precisely target delivery of radiation, maximizing radiation on the tumor while minimizing damage to surrounding tissue.
- Also, Accuray has developed an intelligent robotic radiosurgery system designed to treat solid tumors anywhere in the body as an alternative to traditional surgery.

<http://investors accuray.com/>

LIFESCIENCE  
TOOL/DIAGNOSIS  
€ 6.5 BN

“To create the sensor solutions that make devices and technology smarter, safer, easier-to-use, and more eco-friendly.”

- A global leader in the design and manufacture of advanced sensor solutions
- Focus on high performance sensor solutions
- Their end markets:
  - Consumer & Communications (C&C) -> 50% of sales
  - Automotive, industrial, Medical (AIM) -< 50% of sales
- True leadership in four sensor areas: Optical, Imaging, Environmental, Audio

<http://ams.com/eng/Investor/Presentations>

# Edwards

“Edwards partners with clinicians to develop innovative technologies focused on structural heart disease and critical care monitoring that enable them to save and enhance lives”

- Global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring
- Manufacturer of heart valves and repair products to replace or repair diseased or defective hearts.
- Edwards is the first mover within the trans-catheter aortic valve replacement (via a catheter) which disrupt the surgical aortic valve replacement (via open surgery).
- Innovative R&D to produce breakthrough therapies, strong geographic diversification, nimble & adaptive business model

<http://ir.edwards.com/>

MEDTECH /ROBOT  
€ 20BN

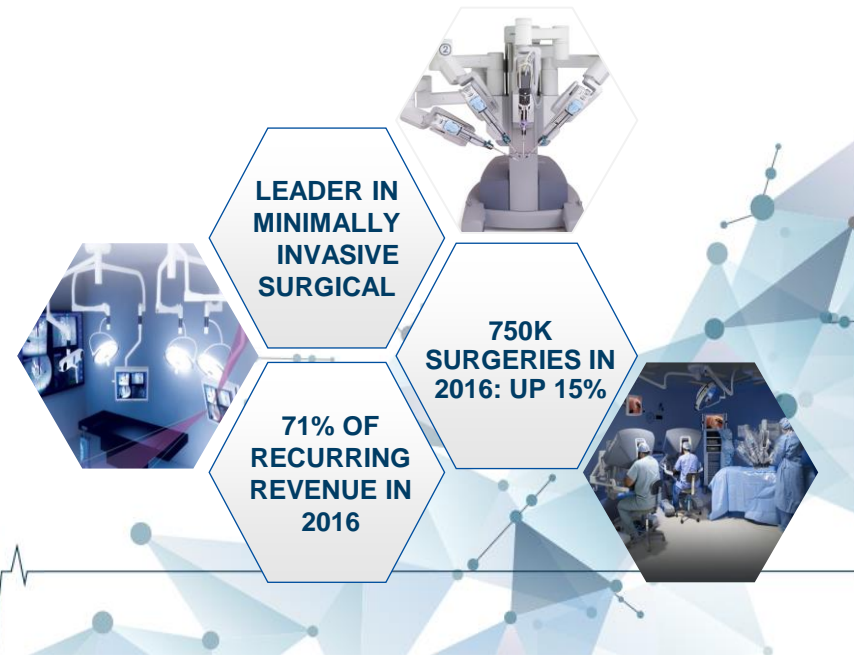

MEDTECH /ROBOT  
€39 BN

“Intuitive Surgical strive to make surgery more effective, less invasive and easier on surgeons, patients and their families.”

- Benefits for the patients : smaller and less traumatic incision, faster recovery time
- Strong expectations form surgeons: more skilled robots, less human risk → significant impact on insurance policies
- Benefits for hospital : more patient and lower costs
- Primary Markets: Urology, Gynecology, General Surgery, Cardiothoracic

<http://phx.corporate-ir.net/>

IMMUNOTHERAPY  
€ 6,7BN

“We’re aligning our investments in scientific research, manufacturing – and most of all, people – to change the way cancer and other serious diseases are treated.”

- A fully integrated biopharmaceutical company focused on developing innovative cellular immunotherapies for the treatment of cancer.
- Chimeric Antigen Receptors (CARs): to recognize cancer cells based on expression of specific cell surface proteins.
- T Cell Receptors (TCRs): High-affinity TCR technology provides T cells with a specific T cell receptor that recognizes cancer cells based on expression of specific proteins inside the cell or on the cell surface.
- Promising results in early clinical trials and may offer new options for patients with cancer.

<http://ir.junotherapeutics.com>

“We believe true innovation transforms more lives.”

- Disruptive entrant within neurostimulation market with Senza for spinal cord stimulation. Provide a superior pain relief compared to conventional techno.
- The therapy is typically used when other treatment methods, such as opioids or surgery fails to relieve chronic, severe pain primarily in the leg of back.
- Sustained spinal cord stimulation can provide pain relief by interrupting, blocking, or masking pain signals being brought to the spinal cord from other nerves.
- Disruption from Senza device come from high frequency stimulation, electrical stimulation at 10000 Hz versus competitors at 40- 120 Hz

<http://www.nevro.com/English/Investors/Overviewx>

BIOTECHNOLOGY  
€ 170BN

“Doing now what patients need next”

- One of the first companies to bring targeted treatments to patients.
- Provides innovative medicines and diagnostic tests that help patients live longer, better lives.
- Leverages technology and breakthroughs in science in order to find out precisely what is malfunctioning in the body and develop drugs to counter the problem.
- Focuses on oncology, immunology, ophthalmology, infectious diseases and neuroscience while striving to remain state of the art.

<https://www.roche.com/investors.htm>

IMMUNOTHERAPY  
€1.5BN

“We don’t follow the footsteps. We create the path.”

- A fully integrated gene therapy platform company seeking to challenge the inevitability of genetic disease
- Aims to reawaken healthy biologic processes through the potential one-time administration of gene therapies, and spark a transformation for people affected by rare genetic diseases where no, or only palliative, therapies exist
- The gene therapy platform is validated: human proof-of-concept data in 3 programs in the retina LUXTRNA and hemophilia
- LUXTRNA potential to be the first approved gene therapy for a genetic disease in U.S

<http://ir.sparktx.com/investor-presentations>

LIFESCIENCE  
TOOL/DIAGNOSIS  
€ 6.6BN

“Make an impact where it counts.”

- A leading global provider of industry-specific, cloud-based software solutions for the life sciences industry
- Their solutions enable pharmaceutical and other life sciences companies to realize the benefits of modern cloud-based architectures and mobile applications
- Market Opportunity: Large and Growing Life Sciences Industry (\$1.7 TRILLION/+6% CAGR), continued rich M&A environment

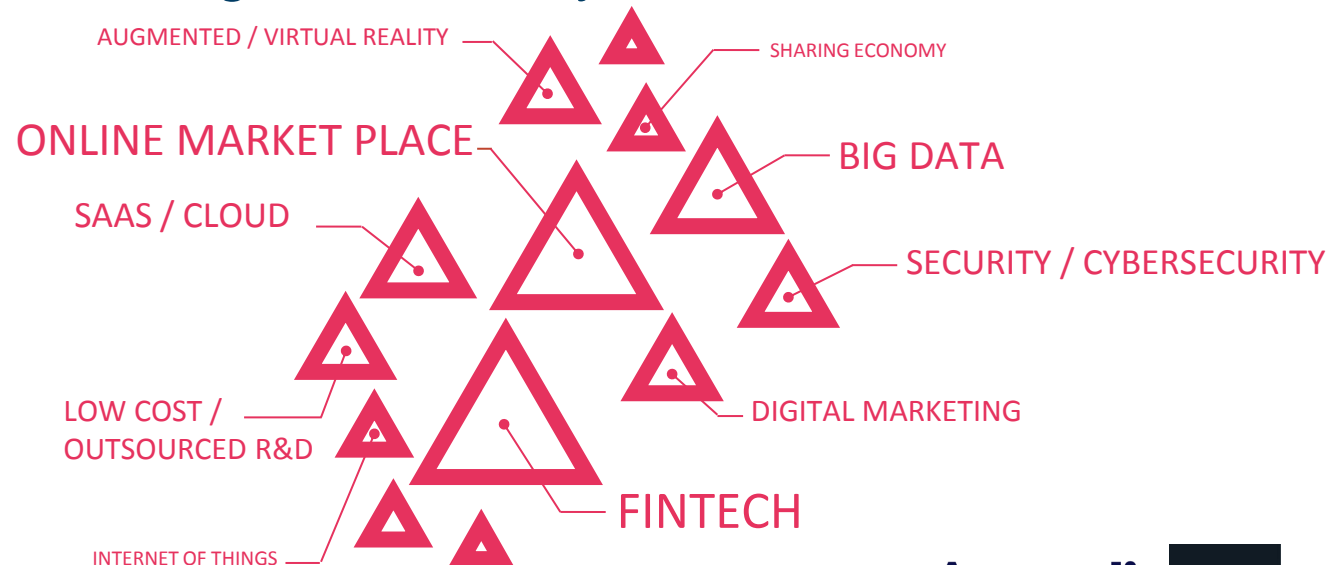

<https://ir.veeva.com/investors/investor-overview>

# Digital Economy

Bringing people closer together, sharing knowledge, saving time and reducing costs safety

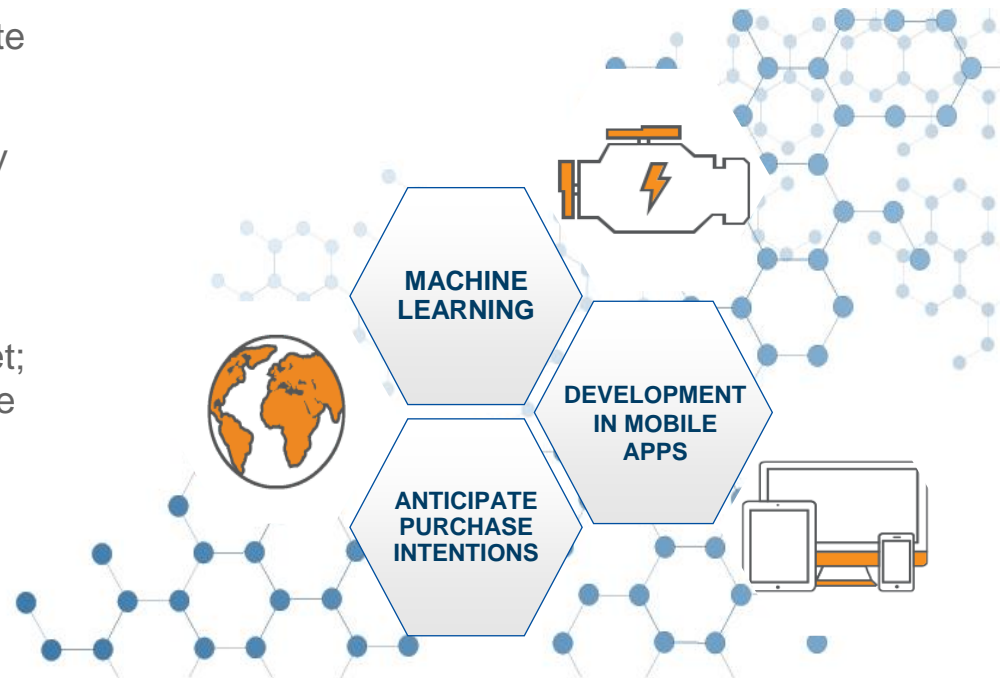

“We've Created the World's most Intelligent Performance Marketing Engine.”

- Big Data to improve the relevance of advertisements (non intrusive) and generate incremental sales
- Data of more than 1,1bn users analysed by Criteo each month
- A unique, global and pure player
- Recent penetration into the Chinese market; business with several Chinese e-commerce leaders

DIGITAL MARKETING  
€ 1.4BN

<http://criteo.investorroom.com/>

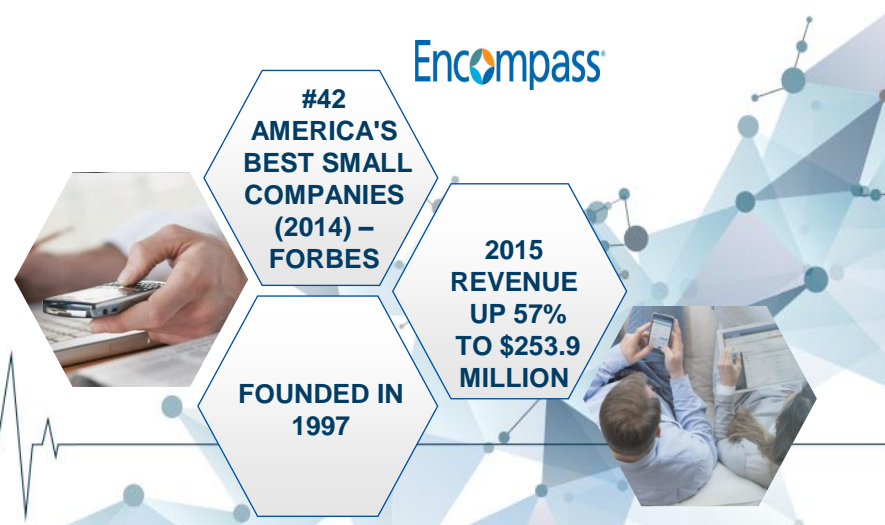

“Technology Powering the American Dream Ellie Mae helps lenders originate more loans, lower origination costs, and reduce time to close.”

- Ellie Mae is a disrupter enablers that will push more lenders large and small to adopt in order to survive and shrink sale cycles.
- His mission: to automate the mortgage process and provide an answer to an industry in crisis as the rising cost of originating a mortgage has doubled the last 6 years.
- Why now? Increasing regulation > rising costs
- Their solution? A software package that can make a mortgage originator more efficient and better equipped to deal with complex compliance issues.

<http://investor.elliemae.com/events>

FINTECH  
€ 2.7BN

OUTSOURCED R&D  
€ 4.8BN

“We transform businesses through the art of digitization. Our expertise spans multiple disciplines, providing our clients with software solutions that dramatically drive results and outcomes.”

- Epam acts as a digital enabler by focusing on complex software development and engineering, their offering is a response to the R&D outsourcing trend, need for shorter product development lifecycles and lead times.
- To help customers into the complex world of SaaS, big data, cloud, social media and more.
- Ranked #8 on Forbes’ list of 25 fastest growing public tech companies in 2016

<http://investors.epam.com/>

CYBERSECURITY  
€ 11.8BN

“The Most Complete Security Platform in Existence”

- Deep cybersecurity expertise, commitment to innovation, and game-changing Next-Generation Security Platform, customers can pursue a digital-first strategy
- A portfolio of services to assist companies with the implementation of next-generation firewall for prevention and detection of today’s most sophisticated cyber attacks.
- More than 37,500 customers – 1,000+ added per quarter for the last 21 quarters – in 150+ countries across multiple industries.
- Clients portfolio: Accenture, Amazon, Microsoft, Motorola, Qualcomm, Raymond James, ...

<https://investors.paloaltonetworks.com/>

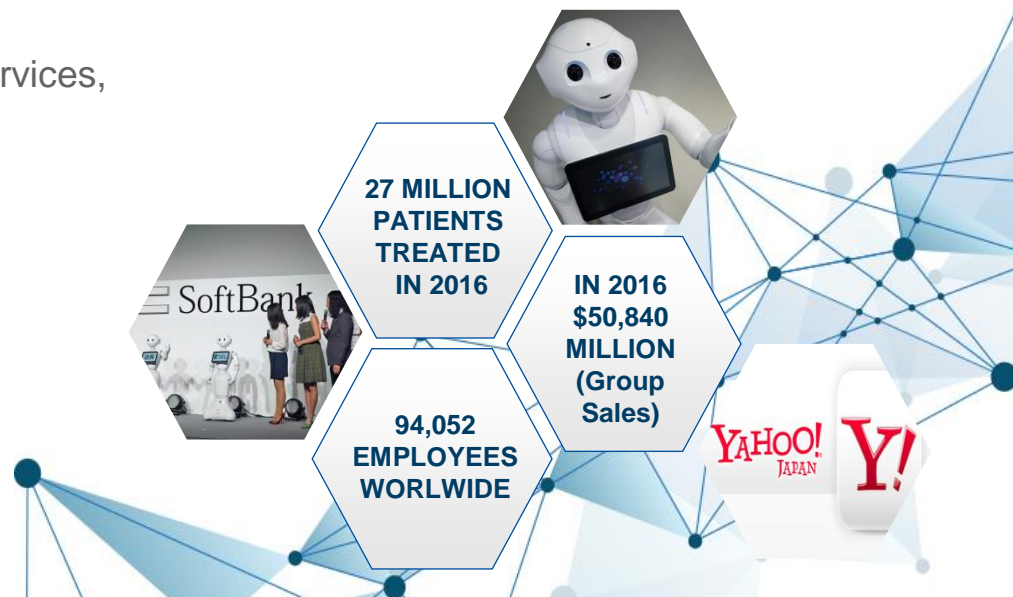

“Driving the information revolution – Happiness for everyone”

- Synergy group centered on the Internet and mobile fields and expanding it on a global scale.
- Main activity area : mobile, Internet, Robot and Energy
- Operating in diverse fields, from distribution platforms such as infrastructure, through to services, content, and products
- Subsidiaries :
  - Softbank Mobile, SoftBank Robotics
  - Yahoo Japan 43%
  - Domestic Telco
  - 29.5% in Alibaba Gp
  - 15% in Uber

<https://www.softbank.jp/en/corp/irinfo/>

ONLINE MARKETPLACE  
€ 74BN

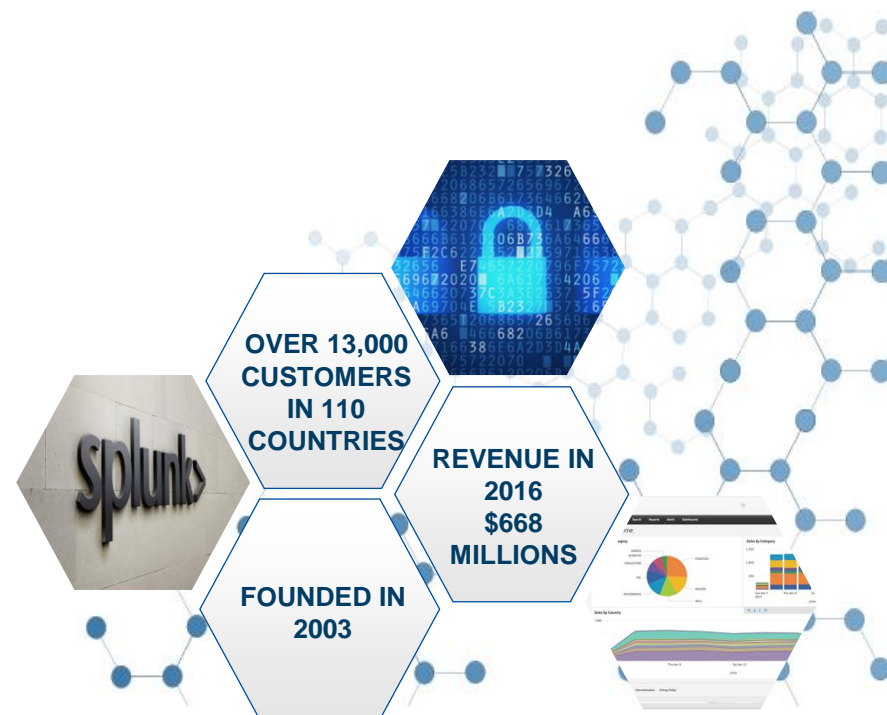

“Splunk was founded to pursue a disruptive new vision: make machine data accessible, usable and valuable to everyone.”

- Leading platform for Operational Intelligence
- Machine data is one of the fastest growing and most pervasive segments of “big data” generated by websites, applications, servers, networks, mobile devices...
- Splunk software transforms machine-generated data into valuable insights that can help to make business more productive, profitable and secure
- Activity Area: big data, business analytics, IoT, cloud solutions, security...

<http://investors.splunk.com/>

BIG DATA  
€ 10.5BN

# Tencent 腾讯

“Connecting people for a great future”

ONLINE MARKETPLACE  
€ 444BN

- A leading provider of Internet value-added services in China :
  - Leading Social Platforms in China and Globally
  - Leader in Online Entertainment, Media & Mobile Utilities
  - #2 online payment platform in China with over 300 million accounts
- Activities area : media, entertainment, payment systems, internet and mobile phone services, online advertising services in China
- Important investment in strategic partnership: exclusive content (video, games, music), category leaders in shopping, food discounts & delivery, transportation, health, real estate...

<https://www.tencent.com/en-us/investor.html>
